Miguel's story

As the owner of a professional photography studio, the ability to upload and download large files is crucial to Miguel's work.

What was it like before you had our service?

Before I had WeLink broadband, I experienced slow internet speeds and an unreliable service which frequently dropped out and slowed down.

What made our service stand out from other options?

It's the best option available. Because of the situation with our flat, there's no cable fibre connection offered in our area.

What have you been able to achieve since using our service?

I work in photography so being able to upload and download large files, such as RAW files, is crucial. Since I've had WeLink broadband installed, I'm able to do so easily.

What has exceeded your expectations since using our service?

The customer support is the best that I have experienced.

What's the main reason you recommend our service?

The quality of connection, the speeds, and a fair price.

What would you tell someone who's considering our service?

WeLink wireless broadband is their best option if only ADSL is available in their area.

If there's one word you could use to describe your experience with us, what would it be and why?

Satisfaction
